

Interested in building a blinkie? Then we have just the thing for you!

Build-A-Blinkie Workshops for Demicon 19

Never soldered before? No problem - our ever patient blinkie techs will provide as much or as little assistance as you require! Our goal is to help you build you very own blinkie.

Saturday Free-for-All 8am – 10am

No charge. Free. Just show up early Saturday! No soldering or circuit-building skills required - just a willingness to learn. Six LEDs. Multiple blinking patterns.

Saturday Open Session 19 LED Stick - \$10 10am – 4pm

19-LED stick. IR detector/transmitter. Infect other blinkies with one of several patterns.

Saturday Open Session
5x7 LED Matrix - \$15
10am – 4pm

Dozens of patterns and text scroll on a matrix made up of 35 LEDs. Yes, there is an IR detector and transmitter for two way communication to other blinkie boards.
